

图形化工具路径

```
/home/mininet/mininet/examples/mininet.py
```

设置一个超级账户

```
sudo passwd  
su  
cd /home/mininet/mininet/examples
```

运行 ./mininet.py 报错

MoTTY X11 proxy: Unsupported authorisation protocol

解决代码

```
cp /home/mininet/.Xauthority /root/ # cp /home/xxx/.Xauthority /root/ 如果自己的用户名不是mininet需要做相应的替换
```

导出网络结构到文件报错

```
Traceback (most recent call last):  
  File "/usr/lib/python3.8/tkinter/__init__.py", line 1883, in __call__  
    return self.func(*args)  
  File "./miniedit.py", line 1707, in exportScript  
    f.write("#!/usr/bin/env python\n")  
TypeError: a bytes-like object is required, not 'str'
```

解决方案

打开 /home/mininet/mininet/examples/mininet.py 文件

对相应的行，代码进行修改(python2的问题)

- 1686
- 1705

```
# 将  
f = open(fileName, 'wb')  
# 替换为  
f = open(fileName, 'w')
```
